

T.C
ONIKISUBAT KAYMAKAMLIĞI
Necmettin Erbakan Anadolu İmam Hatip Lisesi Müdürlüğü

Dear Sir / Madam,

My name is Hacı Ali KULAC. I am the principal of Necmettin Erbakan Anadolu İmam Hatip Lisesi which is located in Kahramanmaraş city center, Turkey.

The school has started providing educational service in August 2016. At our school, four-year academic education is available for only girls at 14-18 age group. The school has been classified by the Education Ministry as "Science and Liberal Arts Project Secondary School". In addition to Science and Liberal Arts academic curricula, the students also get religious education. The school aims to grow up students who are well-educated, open to change and evolution, with sense of representation and leadership for humankind.

In Science Department, our purpose is to educate students who are interested in Science and Technology, able to think, criticize, and produce, and to bring up individuals who have scientific accumulation, ethical values, and knowledge on the important scientists of the history and civilizations.

In Liberal Arts Department, our purpose is to educate students who read, think, discuss, who also provide added values for society and humanity, solve problems between people or societies with advanced social skills, with self-confidence, rational and analytic thinking ability, who have knowledge on the important social scientists and philosophers of the history and civilizations.

Furthermore, we intend to train students who adopt, protect and improve humanistic, cultural and moral values, who value personality and attempt, and who are respectful to human rights, and responsible for society.

Additionally, we aim providing our students foreign language skills in order to facilitate their future researches at global levels.

Regarding those aims, we are able to establish partnerships, and make collaboration protocols with local, regional, national and/or international levels.

In this respect, your support and cooperation is of utmost importance for the future of our students. During our educational, social, scientific and cultural studies, your support will encourage and motivate our students.

We wish to have privilege by making protocol(s), by establishing collaboration with your organization, and enjoy the benefits of the synergy created by the precious efforts of both sides, related with the goals I mentioned above.

Thanks for spending time and reading my letter.

Kindest regards,

Mr. Hacı Ali KULAC
Principal
Necmettin Erbakan Anadolu İmam Hatip Lisesi
